## Layout and Design

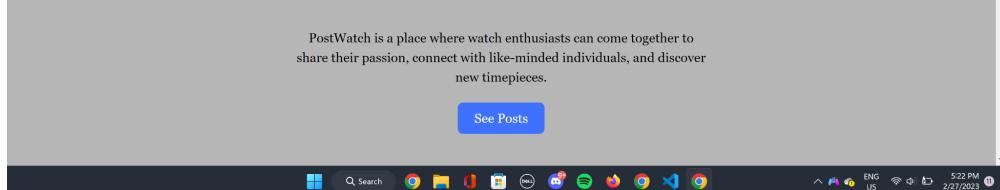

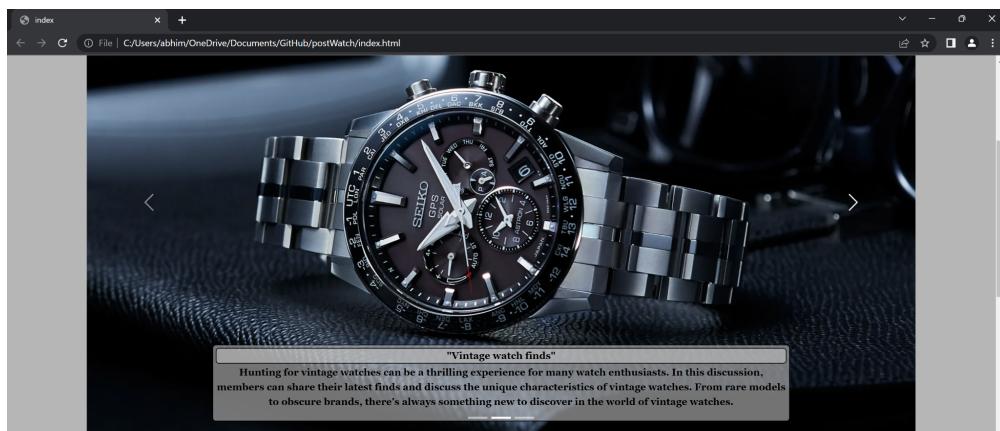

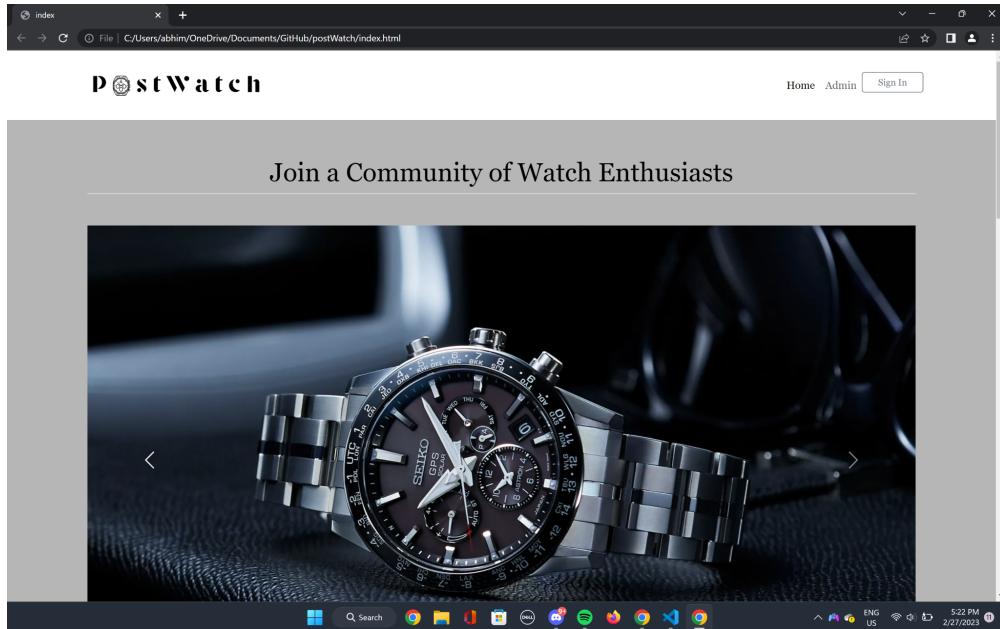

### General Design

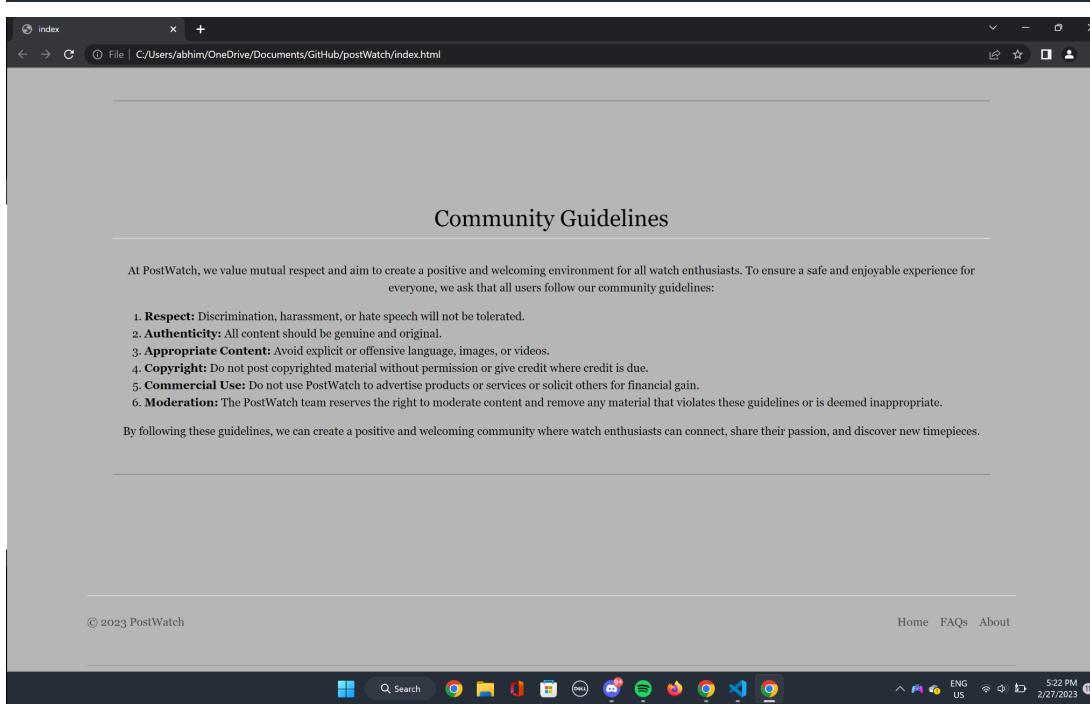

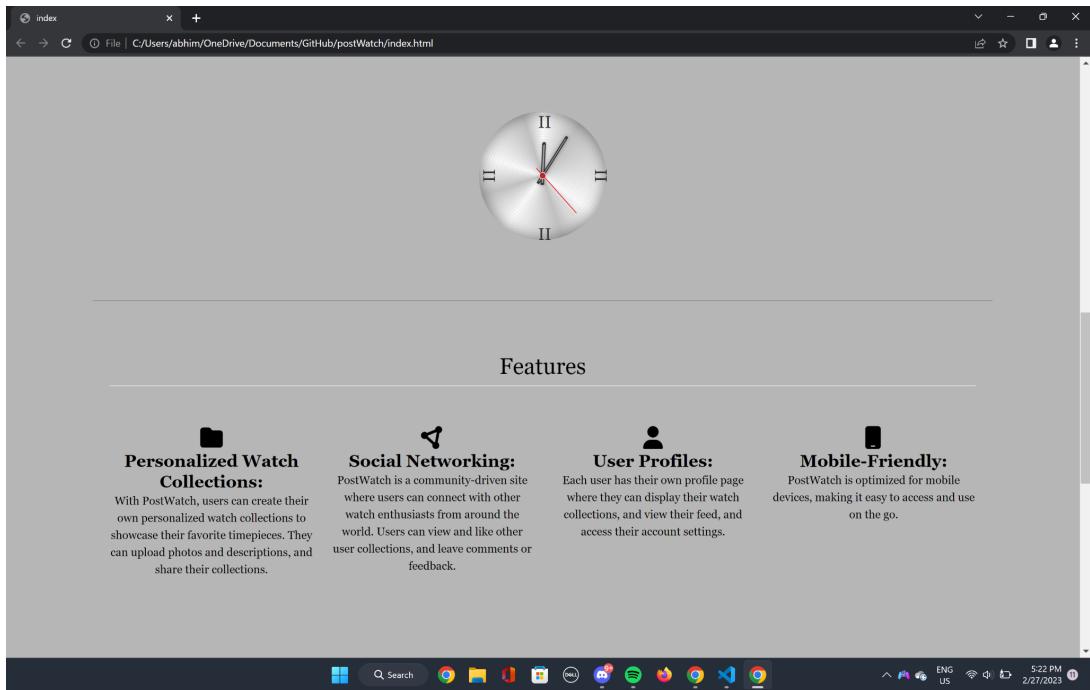

Our website is going to have a sleek and modern look with consistent dark color themes throughout. We're using the latest version of Bootstrap (v.5) to ensure that our web pages look sharp and professional. Plus, we've designed a footer and margins that will give all our pages a cohesive and polished feel.

### Website home page

*Our home page is designed with both functionality and style in mind. At the top, you'll find a convenient navbar that provides easy access to our admin and user sign-in pages. As you scroll through the page, you'll encounter a beautifully designed container that showcases our website's goals, all while displaying stunning background images that capture our message. Beneath the container, you'll find a redirect button that takes you straight to the posts page of our blog, where you can find engaging and informative content. And to help you keep track of time, we've added a clock that's styled using CSS, which displays your local time when you log in. We also take great pride in providing a safe and welcoming community for our users,*

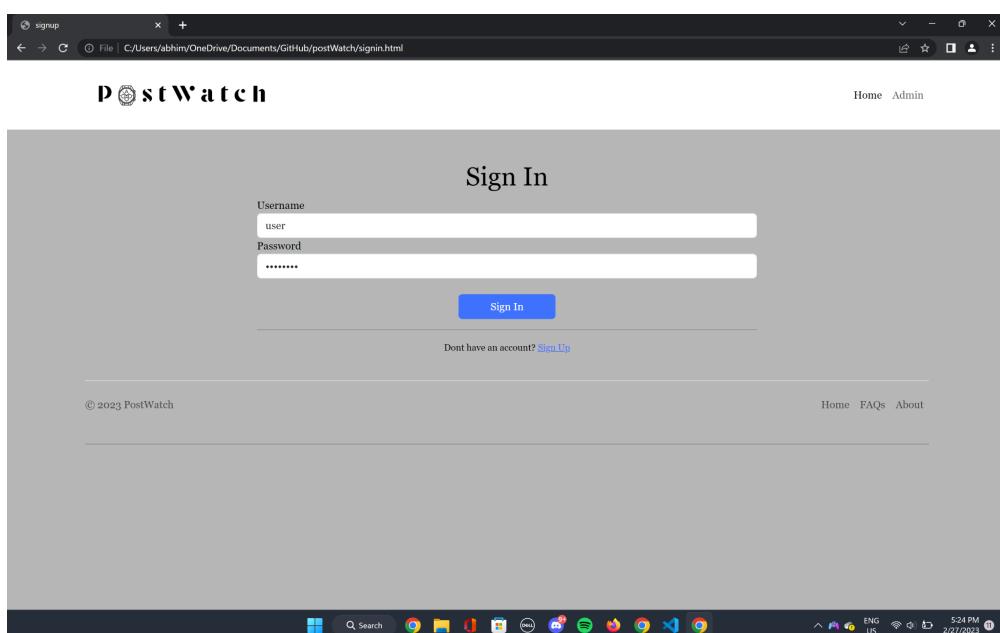

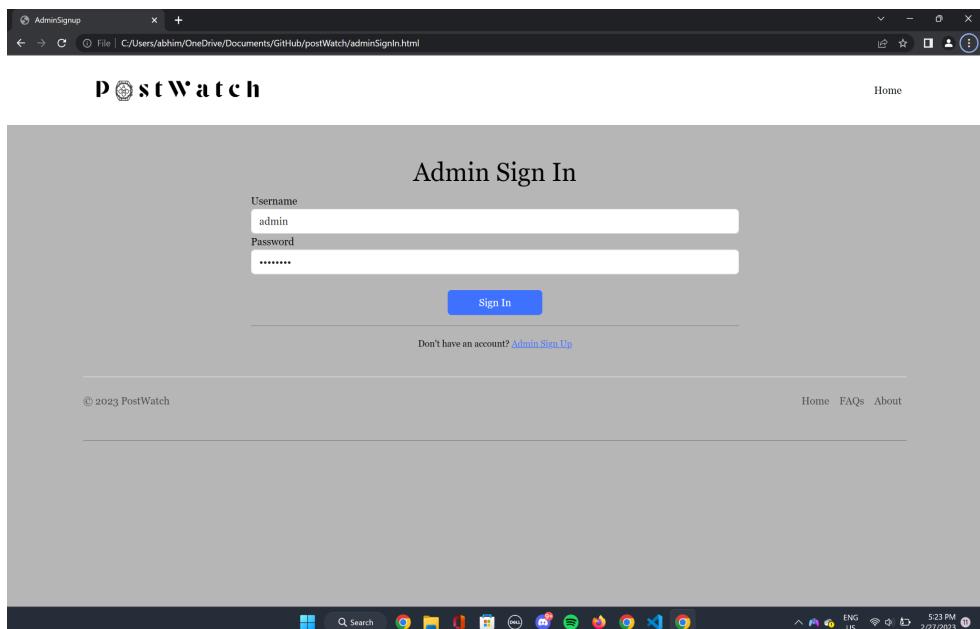

and to that end, we've included easy-to-understand community guidelines that are displayed using eye-catching icons. And if you want to learn more about the features of our website, you can check them out here as well.

## Sign-In pages

Our sign-in pages are designed with simplicity and security in mind. When you're ready to sign in, you'll be prompted to enter your password in a secure password field. Once you're ready, simply hit the sign-in button to submit your information and gain access to your account. Below the sign-in form, you'll find a convenient redirect link that will take you to the appropriate sign-up page (user sign-up for user sign-in and vice versa).

## Sign-Up pages

Our sign-up pages feature the same sleek and secure design as our sign-in pages, with the added fields of email and confirm password to ensure your account is fully protected. Our form is designed to verify the format of your email and confirm that both passwords match before it can be submitted. We've included a redirect link on each page that will take you straight to the appropriate sign-in page, so you can access your account quickly and easily.

The screenshot shows the 'Admin Sign Up' page. It features a form with four input fields: 'Username' (adm), 'Email id' (adm@ad.com), 'Password' (\*\*\*\*\*), and 'Confirm Password' (\*\*\*\*\*). Below the form is a blue 'Sign Up' button. At the bottom of the page, there is a link 'Already have an account? [Admin Log In](#)'. The page is titled 'Admin Sign Up' and includes a 'PostWatch' logo at the top right. The browser title bar says 'AdminSignup' and the address bar shows 'C:/Users/abhim/OneDrive/Documents/GitHub/postWatch/adminSignUp.html'. The system tray at the bottom right shows the date as 2/27/2023 and the time as 5:25 PM.

The screenshot shows the 'Sign Up' page. It features a form with four input fields: 'Username' (user), 'Email id' (add@ccc.com), 'Password' (\*\*\*\*\*), and 'Confirm Password' (\*\*\*\*\*). Below the form is a blue 'Sign Up' button. At the bottom of the page, there is a link 'Already have an account? [Log In](#)'. The page is titled 'Sign Up' and includes a 'PostWatch' logo at the top right. The browser title bar says 'signup' and the address bar shows 'C:/Users/abhim/OneDrive/Documents/GitHub/postWatch/signup.html'. The system tray at the bottom right shows the date as 2/27/2023 and the time as 5:24 PM.

## Posts page

Welcome to our user-friendly page, where you can browse through all the fascinating posts on our website - even if you're not signed in! Each user post is displayed in a separate container with a fixed size, including the date of publication, and a convenient "continue reading" feature for longer posts. Although you won't be able to interact with other users' content, you're free to explore and discover new and exciting posts. And when you're ready to take the next step, our redirect links at the top of the page will take you back to the home page, or prompt you to sign in as a user or admin. And don't worry about missing out on any content - our handy pagination feature at the bottom of the page allows you to easily scroll through even more posts.

The screenshot shows a web browser window displaying the 'PostWatch' website. The title bar indicates the file is located at C:/Users/abhim/OneDrive/Documents/GitHub/postWatch/posts.html. The page has a dark header with the 'PostWatch' logo and navigation links for Home, Admin, and Sign In. A large, dark rectangular banner in the center contains the text 'Join For Free Today' in white. Below the banner, there are four separate card-like containers, each representing a 'Featured post' by a user. Each card includes a small image, the user's name ('User'), the post title ('Featured post'), the publication date ('Nov 12'), a sample of the post text ('Sample post text by user.'), and a 'Continue reading' link. The cards are arranged in a 2x2 grid. The bottom of the screen shows the Windows taskbar with various pinned icons and system status indicators.

## User-posts page

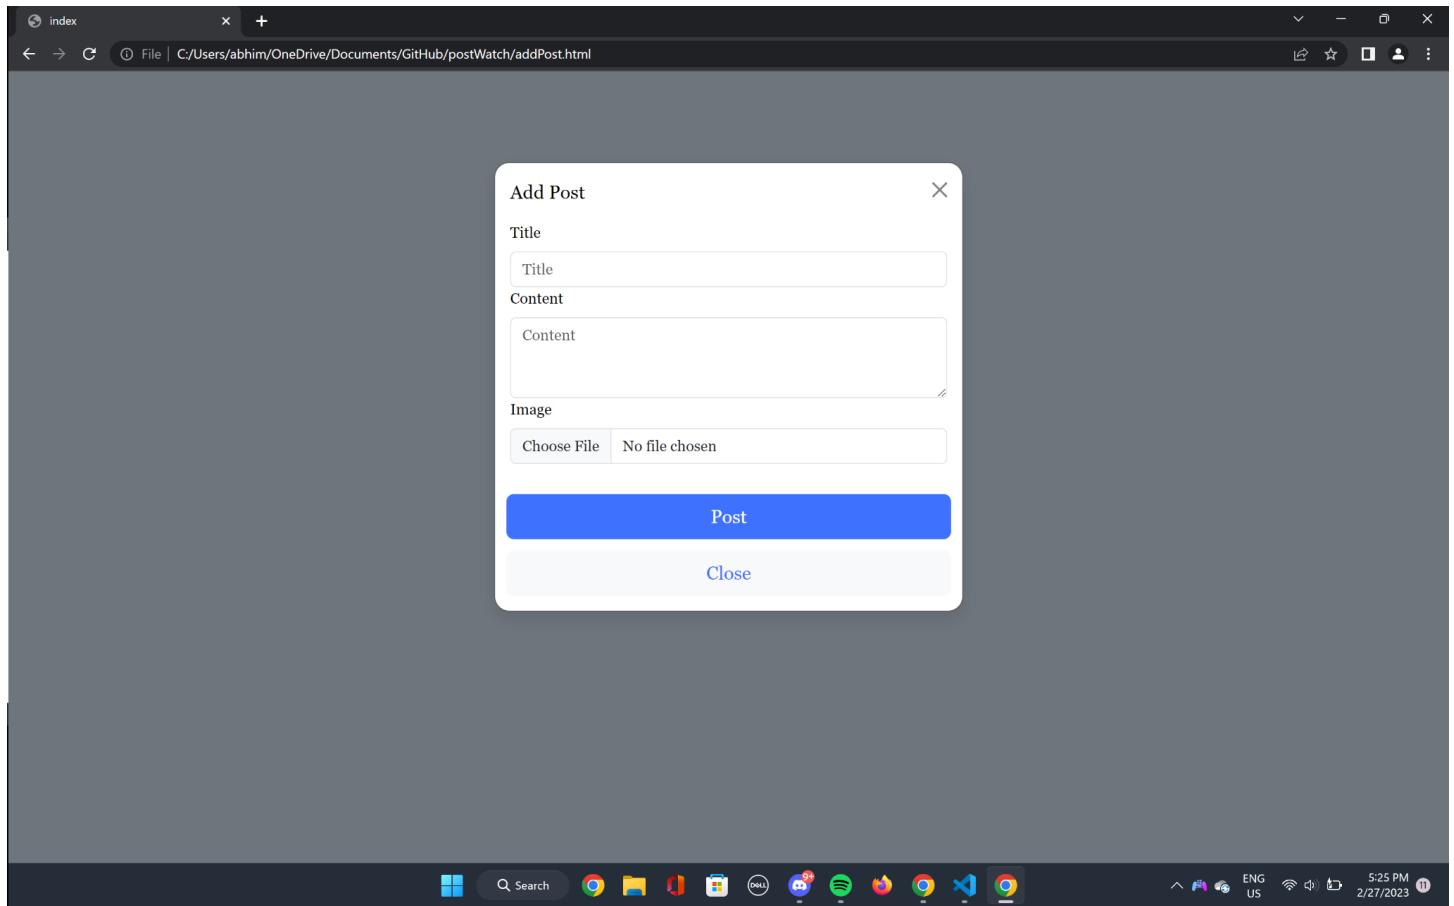

Welcome to our personalized page, designed with you in mind! With a similar layout to our posts page, you'll feel right at home, with one important addition: the ability to sign out using the navbar at the top. With our sidebar, you'll have access to all your account information, including your profile, your posts, and the option to create new content. Plus, you can easily navigate back to the home page whenever you need to. You can engage with other users' content by liking and commenting on their posts, all with just a few clicks using the icons provided by Bootstrap.

The screenshot shows a web browser window titled "index" displaying the "postWatch" application. The page has a dark theme with a sidebar on the left and a main content area with five cards. The sidebar includes a user profile picture, the text "Username", and links for "Create Post", "Home", and "Profile Settings". The main content area displays five "Featured post" cards, each with a user icon, a title, a date, sample content text, a "Continue reading" link, and interaction icons for heart and comments. Each card also has a small thumbnail image related to watches.

## Add post page

Welcome to our elegant and user-friendly post creation page. As a signed-in user, you can create posts in a simple format with a title and content section, and the option to upload images. Simply click the "post" button to share your thoughts with our community.

## Admin Home

*This page is exclusively available to our administrators and provides access to user management functionality. As a signed-in admin, you can view user details, including user number, username, email, and post count, and take action as necessary, such as suspending an account. You can navigate to other areas of the site, including the home page and profile settings, through our navbar.*
